Threat to encryption is a threat to your freedom

Summary:
Draconian laws enabling the government and its agencies to spy on every citizen are being planned. Governments always seek to expand their control over citizens. It does not have to be this way. It's just a matter of changing our attitude. Are we freedom loving Aussies that love our country and its people ..... or are we serfs happy to be ruled, controlled, monitored, fleeced and taxed from birth certificate to death certificate?

WARNING - The Turnbull government threatens your privacy.

Turnbull and his henchmen - Peter Dutton and Angus Taylor - want to put in place legislation to destroy the encryption we all depend on for secure and private telecommunication. Once a government tries to put a “backdoor” into software, hardware and apps it opens up your personal data to much easier hacking - not just from power hungry and lazy government agencies but also cyber crooks.

© Bank Reform Now™ - Australian Non Profit Organsiation - campaigning to put a stop to predatory, unconscionable banking practices.

Bank accounts, email, Skype, phones, computers – all the things you depend on every day to be safe and private are under threat.

By the way - these types of laws are not designed to target terrorists and paedophiles. They are really targeting populations that are getting sick of two party dictatorships. People who are looking for an alternative to business as usual crooked politics.

Privacy is a right. Just like freedom of speech. If they are axed your freedom is at risk.

A lazy dictator's way of “protecting the people” from "threats" such as terrorism and crime is to treat everyone like a criminal. Rather than the crooks losing their rights and freedoms for planning or engaging in crime we all do.

The government is more worried about threats to its power. Social media and the blockchain are both powerful tools to free us from centralised control of corrupt governments and corporations .... including the banking cartel.

Encryption is one of the wonders of the world and for citizens - along with the blockchain - it could become just as powerful a liberator as the invention of the printing press.

The Minister for Law Enforcement and Cyber Security - Angus Taylor MP for Hume - recently refused to answer questions on ABC Radio about how the Turnbull government wants to force device and software manufacturers to implement his plan. Do you think his electorate will be impressed?

Tell these characters where to go at the upcoming by-elections and #OzElection19.

It's time to take a stand and unite to protect our rights and our country.

###

Bank Reform Now was founded be its CEO Dr Peter Brandson in 2013. His family was damaged by NAB and its unconscionable predatory lending practices. BRN is a grassroots campaign aiming to educate and motivate people to take action against a corrupted banking and political system that is stealing the wealth and rights of all Australians. BRN advocates peaceful methods of protest. In a civilised society that is all that is required. We will never initiate the use of force.

How can you help us prepare for the next election?

1. Donate a few dollars each month to the BRN kitty. If you don't want to register on our website just set up a regular direct deposit into our -
IMB Account
Bank Reform Now
BSB 641 800
Account No. 200699525

Or you can just donate whenever you feel like helping out - Just click >> **HERE**

Why should you help? Well we've been working on this for well over five years. You can review all the submissions I've made to various government inquiries and our material here and on Facebook. If you agree with my ideas and methods please help. The three point plan we will release before the election really is the best shot we have to bring justice to our country. If you want the crooks in finance to pay up and face jail time you've come to the right place. Ditto, if you want politicians forced into serving your interests. The enemies of your honest democracy have plenty of money to support their parties and policies. We need resources to mount a great campaign.

Also - by registering on our website you will get uncensored information emailed directly to you. This counters mainstream fake news and social media censorship.

2. Check our Facebook page every day - right >> **HERE** - be generous with Comments and Likes on as many of our posts as possible. Share them to your own page but also to other relevant pages, forums and blogs. Don't wait to see us in your newsfeed. Liking and following the page is not enough. Facebook is choking NGOs, you need to come to us - bookmark our page to make checking in easy. Also when commenting on Facebook or Twitter use these hashtags: #BigBankBANG #NoShamRC #NoWayCBA #OzElection19 #BankReformNow - this all helps spread our message.

3. When we ask you to email a politician or inquiry please do so. Even a short comment is helpful. Click >> **HERE** (link is external) to find your local MP's and Senator's details.

4. Let's try it now - email the Banking Royal Commission and tell them that you want to see the ex-CEOs called in for interrogation AND that you want Commissioner Hayne to ask the government for enhanced powers, expanded terms and an extended inquiry. A compensation fund must be on the agenda and it must begin to be filled with clawed back assets from the CEOs. In addition we want to see Hayne facilitate citizens gaining Equality of Arms - see link below. Email today >> FSRCenquiries@royalcommission.gov.au (link sends e-mail)

5. Tell your friends and relatives that there really is a better way to run a finance system and country. They can support us too and it will make a big difference. Once we have the numbers we all win. The pollies and bankers know the people have the real power so they try to keep us ignorant, busy and fearful.

6. Buy a Bank Reform Now T-Shirt - a beaut way to spread the BRN message when you are out and about. Great conversation starter at the supermarket ... or bank. Link below.

7. Make the Big Bank BANG CBA Boycott a success - Tell everyone! No new loans with CBA for at least 12 months. Download and print copies of the CBA Boycott Pamphlet and spread it around (links below). CBA's share price is already going down. It need a hit so that the pollies and bankers know we mean business. **This year is ours folks .... let's grab it.**
