BRN Election Action Plan - Time To Work Together

Summary:
The major parties do not serve the people's interests. Many of us are sick of being lied to and robbed by politicians and the corporations that own them. It's time to unite and demand new ideas for reform and justice. The people have the power. At Election 2019 we really must use it wisely.

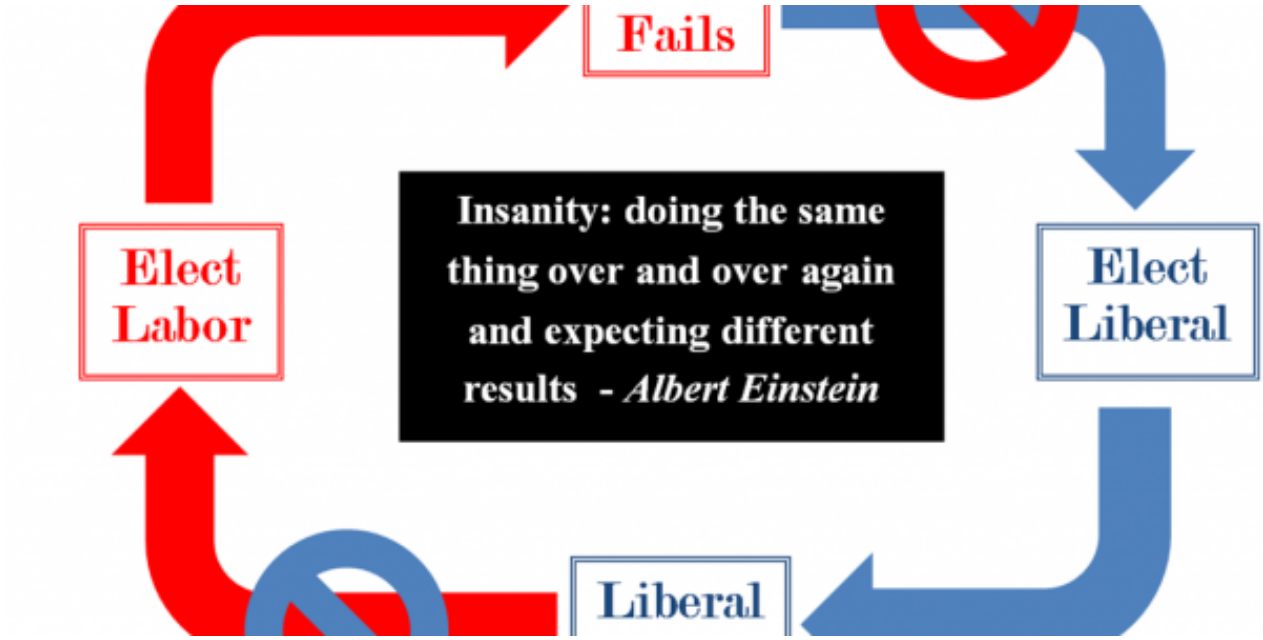

Politicians don't read emails .... they count them. That's why an avalanche of emails demanding action to end corruption, bring in bank reform and other key policies will have an effect.

This action plan has tools including databases of all candidates' - emails / phone numbers / career experience - powerful stuff to help you get a commitment from the candidates.

It's Time To Stand - Unite & Make It Right

There is a financial crisis about to hit. The war drums are beating as the elite ramp up turmoil with their geopolitical games. The major parties have let this situation develop over many years thanks to

greed, corruption and incompetence. They could not be trusted in the past and they can't be trusted now. Election 2019 is our best chance to make a big difference. Both main parties are weak, disrespected and untrustworthy. Mass public action right now has a very good chance of bringing justice to our great country and its people. Right around the world people are turning away from corporate controlled corrupt governments. **It's our turn now.** The way to do it is find good candidates that support good policy.

The biggest hurdle preventing genuine reforms are apathy, ignorance, laziness and stupidity (particularly from politicians who can't be bothered to research and think for themselves).

BRN is trying to make it as easy as possible for everybody to work together. Putting massive public pressure on political candidates right now is the only thing that can work.

Voters should contact their local members and senators [contact Details can be found right **HERE**).

***BUT* ..... to get the best results** big numbers need to contact all the **independent and minor party candidates**

ALSO ..... major party candidates should be contacted but **start with the marginal seat holder and their major party challenger - all listed below.**

These two charts show the LNP and ALP marginal seats.

All Election 2019 Candidates for the House of Reps and Senate are listed on the **AEC website** right **HERE** and at **Wikipedia HERE**. Also below is the **complete list as an Excel Spreadsheet** - with many emails and phone numbers plus career details of the candidates. **BRN has sorted the databases into separate sheets listing Senate candidates by Party and State plus House of Reps candidates by Party and Electorate.** This will make it easy for people who want to do a little work contacting the candidates. Candidates that are supportive of good policy will be highlighted.

See the links below for more info about election strategies and the BRN policy prescription

GET A COMMITMENT from every candidate that you contact..!!

1). Do they support a proper remediation program for victims of bank misconduct and crime? Proper remediation does not have a cap.

2). Will they look at big picture reforms that will improve the lives of millions? People are sick of false promises, dodgy figures and switching between Tweedle Dee and Tweedle Dum every three years. New ideas are needed.

Will the MPs and Senators you contact investigate and support policies such as - **A National Bank / A Sovereign Wealth Fund / A Citizenship Dividend?** Details of these can be found in the #SUMIR - Stand - Unite - Make It Right campaign - see links below. Send the links to the candidates. If they can't be bothered reading about new ideas that's a very good but depressing indication of their representative potential and commitment to stop serving the elite first and themselves second.

Let BRN know how you go via Facebook or email and we will update the Excel Spreadsheet with candidates that support you.

This is what we want candidates to commit to:

1). A properly bank funded remediation program for victims of bank crimes and misconduct. Proper funding does not have a cap.

2). Legislation that insures bankers involved in crimes are stripped of their assets and face jail terms where appropriate.

3). The establishment of an Australian sovereign wealth fund.

4). The establishment of a national bank.

5). The gradual implementation of a Citizenship Dividend which will guarantee a useful job to every citizen.

6). Properly funded access to justice for all citizens involved in a legal dispute with a corporation or government.

CEC
Centre Alliance
United Australia Party
One Nation
The Greens
Katter's Australian Party
Australian Conservatives
Conservative Nationals

You can see the **CEC** candidates **HERE**. CEC is advocating for a national bank and Glass Steagall type laws to break up corrupt banks that are abusing their power.

Reality Check

We know that Morrison or Shorten will be PM no matter what happens during the election. What we want to do is have the people choose the policies. It doesn't matter who implements them or which party wins. The independents and minor parties can help us to **get the policies on the agenda** plus if they do win the balance of power we have a good chance of **seeing the pressure maintained in the new Parliament. Both the LNP and ALP need a kick to reaslise the old ways of abusing the trust of the people are over.**
